

8-30-10 Summary

At the HHS Late-Arrival on August 30th, teachers received an update on the RTI process and reviewed EPAS data from the 2009-2010 testing period. PLAN, IACT, and ACT data was examined to look at trends and growth. Teachers broke into Department and PLT (Professional Learning Teams) groups to look at item analysis data for both the PLAN and IACT. College Readiness Skills were examined and identified as areas to focus on and teachers started to develop PLT Action Plans for how to implement these skills into the classroom. These Action Plans will serve as a template for subsequent late-arrivals and are fluid documents that will frequently be refined to fit the needs of the students. The next late-arrival is on September 13th.
