

## Summary 10-8-10

At the HHS in-service on October 8<sup>th</sup>, teachers were instructed on the upcoming RTI vocabulary rollout beginning the week of October 18<sup>th</sup>. Teachers also received information on ELL and AVID placements. A follow-up activity to “Strategy Instruction in Diverse Classrooms: Scaffolding Instruction for Students who Struggle with Texts” was given by content teachers who led their colleagues through the development of a reading strategy to be used in their classes. Staff were also trained in using Scantron Achievement Series to develop item banks, exams and tying standards to their assessments to collect better data to assist in instruction in the classroom. Teachers each developed an assessment in the system to show the knowledge and skills they had gained. HHS teachers will next meet collectively on the Oct. 25<sup>th</sup> late-arrival to continue their PLT work and look at data from term 1 final exams.
