

## Summary 5-10-10

At the HHS late-arrival on May 10<sup>th</sup>, teachers worked in their PLT's to construct vocabulary lists for the RTI plan that HHS will be implementing in 2010-2011. Teachers developed subject-specific lists of terms and definitions that will be used to develop RTI assessments in the future. Teachers built their lists by aligning vocabulary with the CRS that they have been incorporating into their classrooms this year. They consulted practice and retired ACT exams, the College Readiness Skills, and the PSAE Framework in formulating these lists. The development of these terms and their incorporation into the curriculum will decrease the number of students who get bogged down in the vocabulary that is often cumbersome on the ACT, IACT and PLAN exams. The final HHS late-arrival for the 2009-2010 school-year is on May 24<sup>th</sup>.
