

SECURE YOUR SEAT FOR ACT TEST PREP!

Fall 2014 ACT Test Preparation CEB-903-300 & CEB-903-301

Every single point matters. Using the Cambridge “Six-Step Approach”, students receive diagnostic testing and assessment through pre- and post-testing. Students participate in basic skills review, in-class problem solving, concepts and strategies. There is practice test reinforcement, with the goal to identify subject matters the student needs to “brush-up on” and improve. Reading, English, Science and Math are taught by experienced teachers. This course is designed to help students achieve test scores to reflect their potential by helping them focus on key areas. Books and tests are included in the cost of the course.

*Note: You must register prior to October 13, 2014 to receive textbooks and pre-test.
Bring two #2 pencils and an ACT approved calculator to class (www.act.org)*
