

Dear parent or guardian,

Your child's 9th grade core course level recommendations included factors such as standardized test scores, middle school performance, 8<sup>th</sup> grade teacher recommendation, and individual motivation.

We understand that you request an alternate placement. While your request will be honored, please understand that it is not what we feel to be in the best interest of your student.

In the event your son/daughter is unable to perform at an acceptable level in the requested placement, he/she may only move back to the original level at the beginning of the second semester, providing there is availability.

As parent or guardian of \_\_\_\_\_, I take responsibility for requesting this placement.  
*(Please circle the requested placement below.)*
