

PUBLIC NOTICE

District Wide Application of Lawn Care Products

Pursuant to requirements of Illinois Compiled Statutes Environmental Safety Lawn Care Products Application and Notice Act 415ILCS 65/3, notice is given here by District 300 that the following lawn care product applications have been scheduled. For weed control along fence lines, paved areas, foundations, and planting beds, there will be a district-wide application of Pre-emergent and Post-emergent pesticides. These will be applied by certified D300 personnel between Mar 1st and Dec. 31st, 2017. Specific dates will be posted on the school/building 4 days prior to each application.

For weed control on all grassy areas, there will be a district-wide application by an outsourced contractor.

1: **Spring Application** - Target dates between March 25th and April 30th, 2017

Pre-emergent granule slow release fertilizer.

2: **Summer Application** – Target dates between June 1st and July 31st, 2017

Liquid weed control with slow release fertilizer.

3: **Fall Application** – Target dates between August 31st and October 31st, 2017

Turf Builder granule slow release fertilizer.

Specific dates for the applications listed above will be posted on the school/building 4 days prior to each application.

If additional control applications are needed, a 4 day notice will also be given prior to those applications. Questions should be directed to D300 Building and Grounds at 847-417-0748.
