EXPLANATION OF ACADEMIC PERFORMANCE LEVELS

Standards Mastery Grades for English/Language Arts, Math, Science/Health and Social Studies provide specific information on student progress related to the Common Core State Standards. Each standard is evaluated using a 1-4 scale. Cumulative Standards Mastery Grades are given for each content area based on an average.

Standards Mastery Grade Scale:

Exceeds Standards (4) - The student independently completes the task or understands the concept beyond what is expected at grade level.

Meets Standards (3) - The student independently completes the task or understands the concept.

Approaches Standards (2) - With assistance, the student completes the task or understands the concept. Reinforcement and support are needed.

Begins Standards (1) - With assistance, the student is unable to complete the task, or understand a concept. Significant reinforcement and support are needed.

Not assessed at this time (X) - The standard is not assessed at this time.

Year Long English Language Arts and Mathematics Standards AND Social Emotional Learning Standards: These scores are used to indicate if a student is on pace for meeting the END of the year standards, based on quarterly expectations. These standards are overarching standards that students continue to work on throughout the school year. A student may be on pace throughout the school year and not meet the end of the year indicators of success for the final quarter.

Above - For quarters 1, 2, and 3 this indicates that the student is ABOVE the quarterly targets and is likely to be above or on level for the end of the year mastery of these standards. For quarter 4, this indicates the final level of mastery for the year on these standards is ABOVE grade level.

On - For quarters 1, 2, and 3 this indicates that the student is meeting the quarterly target expectations and is likely to be ON level for the end of the year mastery of these standards. For quarter 4, this indicates the final level of mastery for the year on these standards is ON grade level.

Below - For quarters 1, 2, and 3 this indicates that the student

is not meeting the quarterly target expectations and is likely to be BELOW level for the end of the year mastery of these standards. For quarter 4, this indicates the final level of mastery for the year on these standards is BELOW grade level.
